DETAILED ACTION

Applicant's election without traverse of Group I, Claims 1-3 and 15-19 in Paper No. 5 is acknowledged. However, upon reconsideration of the claims, further restriction thereof is necessitated as follows:

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, drawn to a method for simultaneously determining whether a specimen contains any of one or more certain antigen species, classified in class 435, subclass 7.1.
 - II. Claims 15-19, drawn to a method for determining whether a specimen contains any of one or more certain antibody species, classified in class 436, subclass 173.
2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, Invention I is a method for determining one or more certain antigen species whereas Invention II is a method for determining one or more certain antibody species. Further Invention II requires that the antigen is an allergen and invention I does not require this limitation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the

search required for one group is not required for other restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
